

# Macintosh OS X Wireless Network Setup

Main Campus

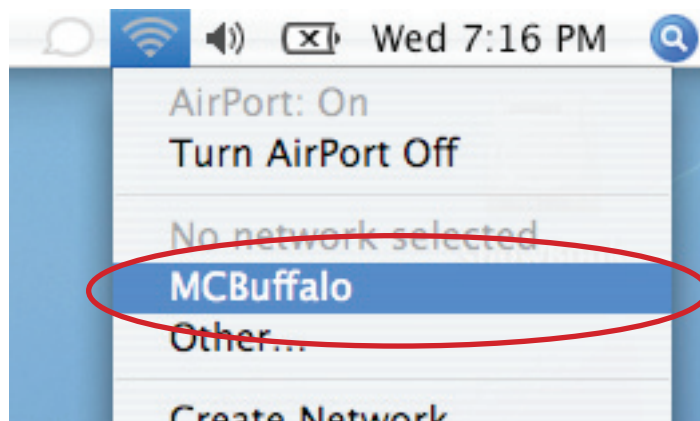

## Step 1.

Click on the AirPort menu icon in the menubar

## Step 2.

Select "MCBuffalo" from the drop-down list.

## Step 3.

In the AirPort dialog box, fill in your user name and password. Check "Remember password in my keychain" then click "OK".

You may need to repeat these steps if it fails to connect the first time.

Once you are connected to the wireless network the AirPort icon will be fully black.
